Hi Stephanie

Thanks so much for all your help in designing my house with me. I know asking you as a person to give advice on colors and such may have been to personal, but I think you did a good job. I like the results we ended up with.

I also appreciate all your effort in finding out the unusual things I asked for and how much they cost that were not on the usual lists. This made the process a little longer.

However, I think all these extra small things will make a big difference in how happy we are about the house. Thanks Again Katherine
